

REMARKS:

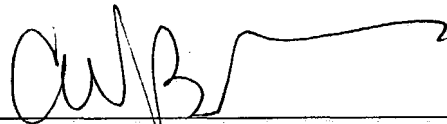

Please enter the above amendments to the claims prior to calculation of the filing fee for this divisional application. After cancellation of originally presented claims 40-41, 44, 46-48, 53, 55, 57, 59 and 61-80, and addition of claim 81 (previously introduced as claim 90 in the parent application), claims 1-39, 42, 43, 45, 49-52, 54, 56, 58, 60 and 81 are pending herein.

Claim 81 is a linking claim linking previously claim Groups I and II restricted out in the parent application. Claims 1 and 14 have been amended to depend from linking claim 81. Claim 27 has also been amended to depend from linking claim 81. Claim 39 has, in turn, been amended to depend from claim 27. Thus, there is only one independent claim and the previous restriction requirement with respect to groups I, II, and III is respectfully traversed. All the claims now can now be examined as a single group. In addition, the cancelled claims eliminate redundant claims, in view of the new 81, which includes at least one ferroelectric load capacitor and one ferroelectric storage capacitor. No new matter has been added.

Please enter the above claim amendments prior to calculation of the fee due for this application filing.

Please contact the undersigned with any questions.

Respectfully submitted,
